Management

Management (not illustrated) AZVentureCapital.com's management team brings together a host of talented individuals with significant experience in founding, funding, developing, operating, and exiting entrepreneurial companies... Advisory Councils AZVentureCapital.com's Advisory team includes leading professionals which are active in the Entrepreneurial Community. These prominent individuals provide a comprehensive array of expertise and networks spanning across this entire business sector. Given the anticipated heavy volume of Entrepreneurial Company reviews, two Councils (Screening, Posting) have been created to reduce the burden on these volunteers and better serve the entrepreneurs with a higher quality review process

This section provides another exposure vehicle for the Greater Phoenix Economic Council to identify its offerings and programs which benefit the Entrepreneurial Community. It provides a roadmap of insight for the entrepreneur, both in-state and out-of-state, highlighting GFEC'S beneficial business tools, programs and people. This section augments the Department of Commerce's offerings and it would allow the entrepreneur to capture additional opportunities, but, on a more local basis...

AZVentureCapital.com offers the accredited investors the opportunity to review pre-qualified entrepreneurial companies seeking funding via the Crown Jewels posting board. The Crown Jewels companies are divided and categorized into two distinct sections, by industry and by \$size, in order to provide the investor with a simple approach to identifying companies which align closer to their respective investment portfolios.

AZVentureCapital.com's two major objectives are to post pre-screened, highly qualified entrepreneurial companies seeking funding and streamline the investors due diligence process. The submitting entrepreneurial companies are subjected to a rigorous review process, having to pass through both advisory screening and posting panels consisting of leaders from the business community. Secondly, AZVentureCapital.com web-based approach also reduces the logistical barriers by providing a host of templated business tools(executive summary, business plan, road show, swot, 24/7 video) which produce consistency and increase efficiencies in the due diligence process....

AZVentureCapital.com extends beyond its Crown Jewel \$ matching product to those companies which are not ready for venture capital primetime funding opportunities, and known as the "Diamond In The Rough" posting board. These companies that don't qualify currently for venture capital are given access to promote their offering to a wider range of business development opportunities in the entrepreneurial community. Meanwhile, the Diamond In The Rough companies can be building the proper structure via the virtual resources offered by AZVentureCapital.com to define, sophisticate and implement strategies designed to accelerate and elevate them to the Crown Jewel level... The entrepreneurial community will have access to vast array of business resources consolidated into this business to business section, Diamonds In The Rough posting board, of AZVentureCapital.com. Diamonds In The Rough subscribers will include accredited investors(angels,vc's, intitutional co.'s), Crown Jewel co.'s, business resources, outside companies, and a variety of individuals, all of which may offer unique and creative opportunities....
